

STANDARD NAILS

This product is cold-made with stretched steel wire in assorted length and diameter with or without nail head and with or without a sharp point. They can be used for affixing, joining, hanging and holding a number of objects.

CHARACTERÍSTICAS
 Large head design allows for a stronger hold since it distributes the hammering force over a wider surface.
 It meets NMX-B-505 standards.
 It comes in 25kg boxes burr-free.

APPLICATIONS AND USES
 Construction, Woodwork, pallets and wooden structures.
